### HORNER ASKS PRESIDENT TO AID ILLINOIS

#### Roosevelt Promises to Look Into Relief Crisis

Washington, Dec. 23.—(AP)—After a lengthy conference with President Roosevelt Governor Henry Horner of Illinois said today he had obtained assurances that the president would inquire into the Illinois relief situation and determine what the government can do to aid.

The governor's conference with the president lasted nearly an hour. Horner said "nothing but relief" was discussed. He denied the Illinois political situation figured in the conversation in any way.

He was asked if a reported offer of a federal judgeship to him was mentioned.

"That matter was never discussed. In fact I've never been offered the judgeship," the governor said. "Wouldn't accept bench."

The governor said he would not accept federal judgeship if it were offered.

Horner said he told the president the Illinois relief situation was serious. The state, he said, has 65,000 more families on relief than it can care for. He asked the president either to increase the state's works progress administration employment quota or to furnish more money for relief.

The governor made the appointment after unsuccessful efforts to contact Harry L. Hopkins, works progress administrator. He said Hopkins failed to answer his telephone calls, a telegram and a letter.

Unless the WPA quota is increased, the Illinois Emergency Relief Commission has reported, the state will have approximately 150,000 families on direct relief January 1.

To care for this number, the governor said, would require \$3,000,000 in January as well as the one-third of the sales tax receipts now allotted to relief. The state administration's future tax program depends on the president's answer to the governor's request.

The Illinois political situation has already been the subject of conference of the president and Mayor Edward J. Kelly of Chicago, who is reported to view Governor Horner's candidacy for re-nomination with disfavor.

Has Severe Cold

For more than a year it has been reported frequently that Kelly and the Chicago Democratic organization would seek to retire Horner from the gubernatorial picture by obtaining his appointment to the federal bench. These reports gained greater currency following the recent death of Judge Louis FitzHenry, a member of the circuit court of appeals for the seventh district.

Horner had a severe cold and said as he left the White House he planned to remain in his hotel until he departed for Chicago late this afternoon.

### Storm Forces China Clipper to Return

Alameda, Calif., Dec. 23.—(AP)—Unable to escape from a mid-ocean storm, the China Clipper returned to her Alameda base today from an intended flight to Honolulu.

The Pan American Airways big flying boat landed at Alameda after 14½ hours in the air. She had flown 700 miles of the 2400 mile course to Honolulu, fighting headwinds all the way.

While the China Clipper was returning to her base, her sister ship, the Philippine Clipper, landed at Wake Island on her return from Manila to California, completing the 1536 mile flight from Guam in approximately 13 hours.

### 282 Miners Unhurt in Blast this Morn

Glen Morrison, W. Va., Dec. 23.—(P)—An explosion in the Morrison Coal Company's mine endangered 282 workers today but company officials said only two were injured.

Superintendent A. W. Laing asserted every workman had left the pit. He explained an accumulation of gas probably was responsible for the blast but he had been unable to learn what ignited the fumes.

Earlier reports that between 15 and 25 men were trapped in the pit had caused state police to dispatch all available troopers to the scene from Beckley, 30 miles away.

### GUNMEN KILLED: BOY USED AS A SHIELD IS HURT

Louisville, Ky., Dec. 23.—(AP)—Two men were shot fatally and a boy, used by one of them as a human shield against police bullets, was wounded seriously early today when detectives sought to question suspects in a holdup in which a bartender was critically wounded earlier in the day.

A man registered as Miles Davidson of Indianapolis died of a bullet wound suffered in a gun battle in which Luther Barger, 22, his host for the holidays, also lost his life. Wilson Chandler, 12, Barger's nephew, was near death from a bullet wound in his chest suffered, police charged, when Davidson held the boy before him and opened fire.

Detective Sergeant Alonzo Barmore was nicked in an arm by a bullet. Police said the battle at Barger's home grew out of an investigation into the critical wounding of Clarence J. (Red) O'Neil, a bartender, by a thug who attempted to rob him as he left an all-night restaurant on East Jefferson street.

### PERMANENT JOBS FOR NRA FORCE

#### Roosevelt Transferred Workers to Official Departments

Washington, Dec. 23.—(AP)—NRA, once keystone of the New Deal, was terminated today by executive order of President Roosevelt.

Part of the functions of the recovery administration were transferred by the president to the commerce department while others were turned over to the labor department.

The division of review, the division of business operation, and the advisory council went to the commerce department under the act approved at the last session of congress extending NRA until April.

The consumer's division was transferred to the labor department, and its employees will come under the emergency appropriation act which does not expire until June, 1937.

This was the law providing the \$4,000,000,000 work relief money.

Get Permanent Jobs

In moving the employees from the emergency agency into the permanent departments, the president provided that they should not thereby acquire civil service status and thus become permanent employees.

By the president's order, signed today, the national recovery administration, about which the entire government seemed to revolve two years ago and which gov-

### HALSEY, STUART & CO. WINNERS IN COURT SUIT

Washington, Dec. 23.—(AP)—Action of the federal district court for eastern Wisconsin in quashing mail fraud indictments against Halsey, Stuart and Company, Inc., was permitted to stand today by the Supreme Court.

It dismissed the appeal because of lack of jurisdiction. The unanimous opinion was read by Chief Justice Hughes.

Previously, government attorneys had said it probably was too late to seek new indictments because the time was limited by law.

The indictments charged misuse of the mails in the sale of \$2,500,000 bonds of the Wardman Realty & Construction Company of this city. It operated a number of large apartments and hotels here.

The government contended the securities firm knew the Wardman interests were in an unstable financial condition, and said the "Wardman company collapsed with more than \$18,000,000 bonded indebtedness."

In taking its action, the lower court failed to disclose a scheme to defraud.

### College Youth, Just Turned 20, to Seek Legislative Seat

Chicago, Dec. 23.—(AP)—He's too young to vote for himself, but David Manly Moltthrop, just turned 20, will campaign for a seat in the Illinois legislature.

A Democrat, Moltthrop had enough names on his petition today to enter the race in the seventh district, consisting of northwest Chicago and suburban territory.

To campaign will mean playing hockey from college, for Moltthrop

is a sophomore in Knox, at Galesburg, Ill. He has arranged to take a leave of absence from Feb. 1 to April 14 to stump his district.

### OVER HUNDRED BASKETS WILL BE DELIVERED

#### Goodfellows Completing Work; Fund Now Over \$400 Mark Today

The Goodfellow fund has gone over the \$400 mark and there are many families being given a fine Christmas by Goodfellows who prefer to supply the Christmas themselves.

The Goodfellow department at the Telegraph is a very busy place today. The work of packing the baskets, about 115 of them, supplying Christmas joy to about 300 youngsters, started Sunday and will be completed tonight and the delivery will commence tomorrow morning, with the DeMolay members, with the help of others who have volunteered, doing the arduous work of delivering.

The Goodfellow baskets are enriched by many gifts, donors of some of whom we do not know. Mr. and Mrs. Fred Hammarstrom sent down three bushels of Golden Delicious apples. A girls' club sponsor by St. Luke's church sent a great quantity of beautifully made scrap books. The Homestead club, a unique Dixon organization, contributed great numbers of very cleverly made wooden toys, including 25 doll beds, equipped with fancy patch work comforters and little china dolls.

### Repeated Threats Against Only Son and Actions of N. J. Governor Influence

#### Will Retain American Citizenship During Residence Abroad

New York, Dec. 23.—(AP)—Colonel and Mrs. Charles A. Lindbergh and their son, Jon, sailed for Europe last Saturday at midnight on the American Importer, it was learned today—to establish a home in England.

An increased number of threats and a growing dread of kidnapers, it was stated by persons close to them, were responsible in part for their decision, which also was influenced by activity in behalf of the convicted kidnaper and murderer of their first-born.

To a friend Colonel Lindbergh recently expressed himself as greatly dissatisfied with the attitude of Governor Harold G. Hoffman of New Jersey, who has interviewed Bruno Richard Hauptmann in his death cell and has expressed the conviction that there are doubts about the case in the minds of many persons which should be cleared up.

Reaches Decision

The friend said Colonel Lindbergh told him he felt he could cope with the criminals in the United States and with the questions of publicity, but when the governor became active in the Hauptmann case Colonel Lindbergh, who attended Hauptmann's trial daily, decided to leave the country.

In the British isles, friends explained, the three-year-old Jon will have a chance for a normal youth, without the constant menace of another such tragedy as robbed the

figures of his day. Lindbergh has attempted to avoid public notice. The kidnap-murder of his child was a tragedy that lifted his name again into black headlines and made it once more a matter of daily conversation throughout the country.

"Dream Home" Deserted.

The "Dream Home" at Hopewell, N. J., has been deserted almost since the spring days of 1932 when police, detectives and federal agents were there seeking clues to the crime committed in the little upstairs nursery.

Reminder as it was of great tragedy, the house was no longer desirable to the Lindberghs as a home. The colonel's counsel later announced that the estate was being given over as a center for child welfare work, and was to be known as "Highfield." Details of the property transfer, however, were not disclosed. Nothing has yet been done, and the estate remains untenanted.

Since the days of the kidnaping the Lindberghs have made their home at Englewood, N. J., with Mrs. Lindbergh's mother, widow of the late Dwight Morrow. The summers have been spent at the Lindberghs' island estate in Maine.

First word of the Lindberghs' departure for England was given in a copyrighted story today in the New York Times.

To Retain Citizenship.

"Although they do not plan to give up their American citizenship they are prepared to live abroad permanently if x x x necessary. "Where they will live in England when they get there not even the closest friends know, and it is probable neither the colonel nor his wife knows. They have many friends there and expect to visit at first until they can find a place that suits them."

Two visits to England, first when he had completed his epochal solo flight across the Atlantic in May, 1927, and with Mrs. Lindbergh in 1933, were said by the newspaper to have impressed the colonel and given the two hope of finding the "tranquility and security which have been denied them in their own land."

Especially For Jon

"They want especially to provide for Jon a normal childhood, free from fears and with opportunities to grow and develop naturally," said the Times.

"They wish also to do some things themselves. Mrs. Lindbergh has her own studies and writing, which she enjoys. The colonel would like time for research and reading himself."

Mrs. Lindbergh's book, "North to the Orient," an account of their flight to Japan, is a current best seller.

Col. Lindbergh is technical adviser to Pan American Airways and Transcontinental & Western Air. The former has recently inaugurated transpacific flights and plans for similar commercial schedules by air across the North Atlantic have developed rapidly in the immediate past.

#### To Live Abroad

Mr. and Mrs. Charles A. Lindbergh who sailed Saturday, with their son Jon, for England, where they will make their future home. Their determination to live abroad was influenced by the recent activities of Gov. Harold G. Hoffman of New Jersey in behalf of Bruno Hauptmann, under sentence of death for the kidnap-murder of their first child, Charles A. Jr., and by a desire that Jon be allowed to live a normal life.

The Lindberghs heard one canary bird sing "The Sidewalks of New York" during the show Saturday. Last Wednesday this bird sold for \$250.

Arrangements were made between President Bunnell of the Dixon club and officers of the national organization for a northwest Illinois district show to be held in this city next fall. Several of the leading Chicago fanciers and breeders have already announced their intention of entering their birds in the show for display purposes only and not in competition. Bird raisers and fanciers within a radius of 50 miles of Dixon will be invited to enter their birds in this showing, and the Dixon club officers today issued a challenge to all bird raisers in this vicinity to enter their birds in this show.

Supreme Court to Rule on Guffey Act

Washington, Dec. 23.—(AP)—The Supreme Court agreed today to pass on the constitutionality of the Guffey law by which the bituminous industry is strictly regulated.

The government and Kentucky coal producers had asked a review of the legislation without waiting for the Court of Appeals to rule on decisions by federal district courts.

At times action in the appellate court is skipped to hasten final rulings on important cases by the court of last resort.

Today's action brought to six the number of cases attacking Roosevelt administration laws now before the high tribunal.

The Guffey act aims to enforce a code for the soft coal industry similar to those set up under NRA by use of the tax power.

Farmer Buried Under Snow 15 Hours; Has Chance to Recover

Joliet, Ill., Dec. 23.—(AP)—Buried under the snow for 15 hours, while searching parties passed his

prison, Fred Lauterbach, Plainfield township farmer, was given a fifty-fifty chance today to recover.

Most of the time Lauterbach was unconscious. Revived, he told how his automobile skidded into a 15 foot ditch early Saturday night, just as a heavy snowfall was

beginning. The snow hid his overturned sedan.

Inside, Lauterbach suffered, when conscious, from a fractured hip. His feet and hands froze. Finally searchers saw the strange obstruction in the ditch and dug the farmer out.

They had passed the scene many hours before.

Lauterbach was hurried to a hospital here.

### DIXON CANARIES WIN IN CHICAGO SHOW LAST WEEK

#### Recently Formed Club Attains National Recognition

Members of the Dixon Canary Breeders club, organized two weeks ago, won national recognition at the annual show of the National Canary Breeders Federation, held at the Congress hotel last week, which closed Saturday. Some of the local fanciers who displayed birds at the show were in attendance when the final judging took place Saturday. Willard Bunnell, organizer of the Dixon club, brought home three ribbons for first, second and third in the warbler class. This recognition placed his entries in the top-most position of all birds in this class shown at the annual meeting.

Mrs. Guy Harmon of this city, competing in a wide field of entries, in which birds imported from Germany were entered, came within four points of winning the national championship in the roller canary class. The winner scored 47 points while the Dixon entry totalled 44 points.

Mrs. Hulshart Wins

Mrs. Harry Hulshart of this city was awarded first diploma for her entry in the warbler class. Miss Doris Barkman of Ohio, a member of the Dixon club, was awarded second diploma and award of merit in the warbler division and Miss Alta Smith of this city, won third diploma in the same class.

With these awards, the Dixon club members brought home a first, second and third national championship, awarded Willard Bunnell, and three of eight diplomas, or awards of merit in the national organization.

### ZERO WEATHER PREDICTED FOR CHRISTMAS DAY

Chicago, Dec. 23.—(AP)—Old fashioned Christmas weather swept into the northwest today with a promise of zero cold as a holiday gift for most of the nation.

Another wave of frigid winds and snow was on its way east, the weather bureau warned.

Advisory storm warnings went up on Lake Michigan, and snow was forecast for Illinois, Indiana, Ohio, Michigan and Wisconsin for tonight.

By tomorrow the northwest and midwest will be in the grip of a new cold wave that hit the Rocky Mountain region and the Great Plains states today, the forecast said.

The zero weather would keep in tact for Christmas the snow that mantled the northern and central tier of states from the Dakotas to New England and dropped fringes into Alabama, the Carolines, Virginia and Georgia, the weather bureau predicted.

The mercury, although rising from last week's depth, held below freezing throughout this area and hazardous weather conditions were blamed for many of the weekend's 150 highway deaths.

### GRAND DETOUR'S BRIDGE CLOSED

#### Skidding Auto Broke the Supporting Brace Late Yesterday

The slippery snow-covered paving at the south approach to the Grand Detour bridge caused a wreck yesterday afternoon about 4 o'clock which may result in the bridge being closed to traffic for two weeks and possibly longer, one of the main supporting steel beams being snapped off which allowed the floor to sag, causing a closed order being placed on the bridge at 8 o'clock last evening.

James LaBene, wife Juanita, and three small boys had been visiting at the Dixon state hospital and were returning to their home in Chicago, by the way of Oregon. As the car approached the curve at the south end of the bridge, the machine skidded, striking the east main support which snapped. Mrs. LaBene sustained several lacerations of the right foot and the three small boys were bruised. State Highway Officers Robert Canode of Oregon and the newly appointed officer, Frank Leonard of Rochelle, were near the scene at the time and brought all of the occupants to the Katherine Shaw Betha hospital, where their injuries were dressed, and they later returned to Chicago. The car was badly damaged.

Engineers Close Bridge.

Light traffic was permitted to use the bridge until 8 o'clock last evening when engineers from the Dixon state highways offices discovered that the floor was sagging, and all traffic was halted. Traffic today was being routed north from Dixon on route 26 to the junction north of Polo, then east through Mt. Morris to Oregon. At the state highway officers here it was announced that bridge engineers from Clinton, Iowa, had been called to inspect the damaged structure and repairs will be made as soon as

### PARABLE OF YOUTH.

By Joseph Fort Newton.

A OLD parable from the long ago tells of a king who was content to rule over a small country he had inherited from his father. He was not interested in anything outside his kingdom.

In order to keep what he had inherited he brought up his two sons in ignorance that anything existed beyond the borders of his realm, in the hope that they would not be restless.

Let them discover there were splendours elsewhere the king built a wall around his little domain, and made doors solid and strong, trying to keep his sons content with their lot.

As the years passed by, however, his sons became dissatisfied with the closeness of their captivity, and began to wonder about the great world outside those heavy doors, and what it contained, and what reward is held for those who ventured into its teeming life.

"Behold," said the elder to the younger, "our kingdom is no more than a prison," and they took counsel together as to how they might open the door and venture forth into the world beyond the frontier.

Their desire to do so was fanned by the words of a wise man in the kingdom, who in his distant youth had been past the walls, and sometimes told them of the great cities and palaces he had seen.

"But how," said the elder son to the wise man, "can we win our way out, when the hinges of the doors are rusted and our father forbids anyone to open them on pain of severe punishment?"

"My sons," said the wise man, "are you not young? Are not your arms strong? Were I young again no doors nor walls would hold me within a cabbage patch when the great world of adventure called without."

The following day, when the morning broke, the boys went to the old doors with their rusted hinges, and with strong arms forced them open.

And lo! beyond the sun was shining on a fair, wide world full of promise, and they passed through and beyond the walls—symbols of smallness of vision—with never a backward glance!

## LAST WEEK IN AFRICA

The long-awaited major battle between Italian and Ethiopian forces has taken place, with the reliable Associated Press reporting the Italians having the advantage. This victory by the Italians may have some influence upon any new peace plan that may be formed in the near future.

British and French statesmen, when they make another plan for further sanctions against Italy, will wait to see what the United States administration does. When we consider the facts about the late proposal to enforce an oil embargo against Italy, it is easy to assume that some one made a serious blunder.

First, there were press dispatches stating that Secretary of the Interior Ickes had made threats against ship lines carrying oil to Italy. The threats, as quoted, consisted of a warning that the administration would call in the loans of such lines as might owe money to the federal government.

Presumably encouraged by this reported attitude toward the shipment of oil to Italy, both England and France led the league into setting a date for a meeting of a committee already keyed up to announce an oil embargo against the Fascists.

Mussolini immediately ordered his airplanes and announced that, if such an embargo were enforced, he would attack the British fleet. But the British continued to call for the committee meeting on December 12, apparently willing to risk the attack, and presumably still relying on the American threat of an oil embargo.

Then Secretary Ickes announced that he was not talking about oil at all, but merely meant munitions of war as stipulated in the American neutrality act passed by the last congress. Asked why he did not correct the misinterpretation sooner, Mr. Ickes replied that if he should attempt to make a correction every time he is misquoted he would have no time for his official duties.

Immediately the British and French, knowing that an oil embargo not supported by America would be pointless, backed hurriedly away from that position.

Any one may use his own judgment in attempting to decide whether the misquoting of Mr. Ickes had anything to do with the subsequent desperate attempt of the British Mr. Hoare and the French Pierre Laval to jam some sort of peace plan—anything—down the throat of the Ethiopians so as to get themselves out of their extremely untenable position. The facts are these: As long as they thought America was going to impose an oil embargo, they were hot for an embargo even if it meant an attack on the British fleet. When they learned that the American oil embargo would be extra-legal if not illegal, and an usurpation of authority not likely to be countenanced by the courts, they realized they had to do something else. Then they attempted to betray Haile Selassie, who has been about the only ruler on earth who has clung to the league covenant through thick and thin.

The attempt cost Hoare his job, threatened the existence of the British and French cabinets and left the whole situation in a state of flux. The only sanctions still applying against Italy are those which the Italians feel they can endure.

It is likely that before the league supporters take another stand based on an American policy as misquoted, and left uncorrected until heavy damage is done, they will ponder deeply. In fact, they probably will take the present administration on its acts, not its words.

## MISPLACED COURSHIP

The Massachusetts courts have held that a motorist who zips along the highway at 35 miles an hour, while embracing a fair young thing who shares the front seat with him, is "grossly negligent" in operating his car.

A young gentleman who had been doing just that was involved in an accident. The lady whom he was hugging suffered a dislocated jaw, loosened teeth, and sundry cuts and sprains when he let his car get out of control and hit a tree.

She sued for damages and got them on the charge of gross negligence.

About all you can say about this ruling is that it states the case mildly. Hugging a girl can be a very enjoyable pastime, but the driver's seat of a moving auto is not the place to indulge in it.

The driver who combines hugging and driving is not merely grossly negligent; he is an eternal fool and a public menace as well.

WHAT THE NEWS  
WAS AROUND DIXON  
IN YEARS GONE BY

## 50 YEARS AGO

All of our churches are being elaborately decorated for the holidays.

Mrs. Samuel Bovey is so very ill that it is feared that she will not survive many hours.

If the people over in Dementtown should hear an unearthly scream over at Nick Plain's brewery this evening, they need not be alarmed thereat. He has put in a steam engine with boiler attachment which may toot in a Teutonic sort of way to indicate that Nick still runs his still and makes a tonic still is not considered too tonic by his Teutonic customers.

The members of the Forest Home lodge, No. 137, A. O. U. W. gave their former Master Workmen D. R. Bowles a rousing old fashioned surprise last evening.

## 25 YEARS AGO

The American Wagon Co., of Chicago announced plans to move its plant to Dixon.

Oscar Baehler of Palmyra escaped injury when his buggy overturned in a runaway accident.

Mrs. George Harms of Palmyra passed away at the Dixon public hospital at 5:30 this morning.

Mrs. H. E. Chadwick of Ashton, wife of Postmaster Chadwick, died suddenly Tuesday evening of heart failure.

## 10 YEARS AGO

Mrs. George Dietrich, formerly of Dixon, passed away at her home in Chicago this morning.

Mrs. Julia Simpson, aged 75, was found dead in bed at her home in Steward this morning.

There are 2 per cent fewer cars in service in the United States at present than in 1929, but gasoline consumption for 1935 was 13 per cent greater than in 1929.

## READ THE STORY, THEN COLOR THE PICTURE

Old Jack Frost said, "Well, Coppy, you have done all that I wished you to. All of the autos that you've wound have run around just right."

"Now we, I guess, can safely say they'll be just fine on Christmas day. Just think of all the toys that they will fill full of delight."

"Why, sure," said Coppy. "That's why I was glad to come up here and try to help old Santa till he'd straightened out all of his toys. 'I know that they'll spread heaps of cheer, 'cause they have done it every year. It's always fun to do things for the real good girls and boys."

Just then wee Scouty rushed in and he shouted, "Come, lad, lend a hand. We're going to pack kind Santa's sleigh. There's much work to be done."

"We'll load the sleigh way to the top with toys from every little shop. It will not take us long, and it will be a lot of fun."

The other Tines were outside,

"Well, let's get going," Dotty cried. "Here comes fat Santa with the sleigh. Just see the old man grin. 'He knows that, right now, he is set to take a ride, and I'll just bet he'll steal away as soon as all the fine toys are packed in."

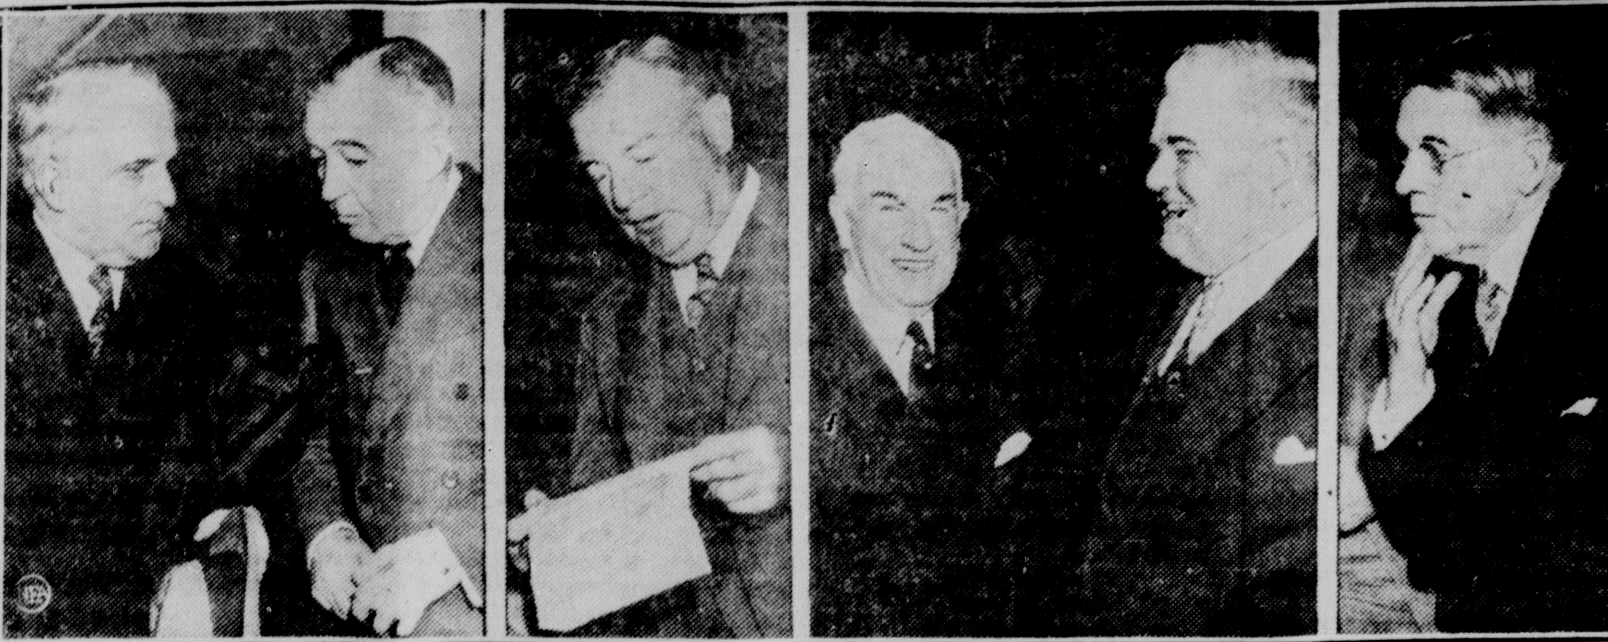

"Of course I will," said Santa. "Gee, you've been a lot of help to me. Now, when you start, be sure that everything is safely packed. 'Some of the dolls will break with ease, so all of you be careful, please. I wouldn't want some girl to get a doll whose face is cracked."

As Jack Frost took the sleigh around, fine gifts were packed in safe and sound. Brave Coppy shouted, "Leave a place for Santa Claus to sit."

"Oh, don't mind me," old Santa cried. "There's nothing that will spoil my ride. Why, even if I have to stand, I will not mind a bit."

(Santa Claus sails away in the next story.)

## G. O. P. GENERALS MAP PLAN OF ATTACK FOR 1936

Faces long familiar in G. O. P. councils beamed with confidence as the Republican national committee, meeting in Washington, mapped campaign plans and chose Cleveland as the 1936 convention city. Shown at the war council are six of the leaders: Senator James J. Davis and ex-Senator David A. Reed of Pennsylvania; Walter Edge of New Jersey, ex-ambassador to France; Henry P. Fletcher, chairman of the national committee; George Akerson, former secretary to Herbert Hoover; and Walter Brown of Ohio, former postmaster-general. The conference agreed that the principal attack of the New Deal would be charges of waste, incompetence and invasion of states' rights.

## DAILY HEALTH

## INFLUENZA

The United States Public Health Service recently issued a warning that influenza is prevalent in Hawaii. The warning is significant in light of the fact that the last (1932) epidemic of influenza was first noted in Hawaii, and subsequently spread to the United States. It may be pertinent, therefore, to survey what we know about influenza.

During the last two years it has been definitely established by research carried on in England and in America, that influenza is due to a filterable virus, that is, to a disease-causing agent too small to be seen under even our most powerful microscopes, and small enough to filter through unglazed porcelain.

The discovery that ferrets and white mice are susceptible to the virus of influenza has made available for the further study of the disease two valuable experimental animals. Through experimentation with these animals, it has been found that the serum, that is, the liquid part of the blood, of ferrets that had influenza and recovered, contained substances capable of neutralizing or overcoming the virus of influenza.

Furthermore, it has been found that when a quantity of living in-

fluenza virus is injected under the skin of white mice, these animals develop a resistance to the disease.

This experimental work promises to make available for us a preventive vaccine against influenza and warrants the further study of the use of serum taken from individuals who have recovered from influenza in the treatment of serious cases.

For the present, however, neither vaccine nor immune serum is available. Hence, we must do our best to avoid infection, and if infected, to "play low." This is indeed the best precaution and treatment.

By promptly withdrawing himself from circulation (when he feels the very first symptoms) the influenza sufferer not only conserves his vital energy, but also limits his exposure to secondary infection.

Tomorrow—Mental Depression.

Washington, Dec. 23 — (AP)—Illinois youths enrolled in the Civilian Conservation Corps sent \$10,899,000 home to dependents between April 1, 1933, and December 1 of this year, according to Robert Fechner, director of emergency conservation work.

The basic pay for CCC enrollees is \$30 a month. Of this sum \$25, in most instances, is sent directly to dependents by the government and \$5 paid to the enrollee.

With James Hamilton Lewis and William T. Dieterich both in Washington last week, Illinois had full senatorial representation at the capital for the first time since congress adjourned last August. Both planned to return to their homes for the Christmas holidays.

Rep. Kent E. Keller, who has spent most of the congressional recess here, has departed for his home at Ava, Ill., happy that "the money for the Cairo bridge is on the barrel-head."

The Ava representative who said he wasn't going home until the \$654,545 allocated by the Public Works Administration was made available by Comptroller General McCarl, had to remain here two weeks longer than he expected but left for Illinois within a few hours after being informed the warrant had been signed.

Senator Lewis was scheduled to play the part of a country schoolmaster in a skit presented by the Illinois Society at its Christmas party but he didn't get to school on time so his place was taken by Mrs. Grace Cooper of Carbondale.

Mayor Edward J. Kelly of Chicago and President Roosevelt have been together a lot lately. After entertaining in the president's honor at Chicago recently, the mayor, within a ten-day period visited the White House three times. Once he attended a social function; the other two times he had lengthy interviews with Roosevelt at the White House offices.

After both business trip he refused to reveal the subject of his conversations.

Reports persist in Illinois congressional circles that Rep. LeRoy Adair of Quincy is being considered for appointment to the place on the Circuit Court of Appeals made vacant by the death of Louis Fitzhenry of Bloomington.

Neither Senators Lewis nor Dieterich has made any public comment on the report.

## Veterans Hold Edge in Struggle With Youth For Fielding Honors

### National League's Records Show the Trend

New York, Dec. 23.—(AP)—The veterans of the baseball wars had the edge in the annual struggle with youth for National League fielding honors during the 1935 season.

The official records today reveal that while the speedy youngsters compiled many of the highest marks, players who had been piling up experience over a longer stretch gained the leading places on the basis of the full season's play. Taking 100 games as a minimum for a competitor for first place, the leaders in the various positions were:

First base—Bill Terry, New York, .96; second base—Billy Herman, Chicago, .964; third base—John Vergez, Philadelphia, .953; shortstop—Bill Jurges, Chicago, .964; outfield—Mel Ott, New York, .990; catcher—Charles (Gabby) Hartnett, Chicago, .984; pitcher—Hal Schumacher, New York, 1.000.

The leadership in most of the infield positions and behind the plate was open to dispute as the 100-game players were few and far between. At second, for example, Jimmy Jordan of Brooklyn fielded .983 in 46 games and Frankie Frisch, St. Louis manager, .982 in 89 games, just beating out his alternate, Burgess Whitehead. Jimmy Bucher of Brooklyn made a .982 mark in 39 games at third.

There was a keen race among the part-time catchers for the highest average. Virgil (Spud) Davis of St. Louis, who alternated with Bill Delaney, made a .992 average against 1901 for Earl Grace of Pittsburgh and .990 for Frank Hogan of Boston. Davis played in 91 games as compared to Hartnett's 115; Grace in 69 and Hogan in 56. Hartnett made a unique record when he topped the place as best fielding catcher for the third year in succession. It was the eleventh year of his long major league career in which he had caught 100 games or more and the sixth in succession. The only other repeater was Terry. Both were among the leading batters of the season as well.

The St. Louis Cardinals edged out New York's Giants for the club fielding leadership by the margin of .9727 to .9720 with the Cubs third at .970. Chicago, however, led in double plays with 163 twin killings with Herman figuring in 109 of them. Cincinnati and Philadelphia made the only triple plays. The league as a whole established a new low record by making only 14,167 assists, displacing the 1934 mark of 14,276.

Records Tied  
One team record and three individual records were tied while Lloyd Waner of Pittsburgh, in making nine putouts in each game of a doubleheader, was credited with establishing a new mark.

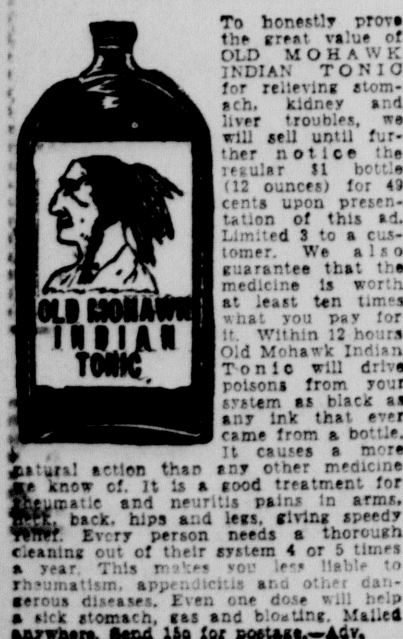

The record-equaling feats were by the Phillies in completing six double plays in one game; by Jim Collins of St. Louis, in handling only one chance at first base in a complete game; by John C. (Blondy) Ryan of Philadelphia in participating in six of the Phils' made out of the six of the Phils made out; and by Lou Chiozza of the same club in handling eleven assists at second base.

To combat the danger of carbon monoxide gas, there should be a circulation of fresh air through the car, whether it is idling or in actual traffic use.

Lack of oil will cause auto wheel bearings and king pin bushings to wear, and dirt picked up by the wheels soon completes the damage.

### Basketball Card Unusually Thin Christmas Week

Basketball in Dixon comes to a temporary halt this week with only the Industrial league games to-night on the schedule. The Knack's Leaders will meet the Rink's Coalers and the Beier Loafers will face the Ashton team the first game beginning at 7:15 P. M.

The closing of school for the Christmas holidays will stop all grade school and high school games this week. The Dixon high school quint with one conference victory over the Kelb under its belt does not play again until Friday, January 3, when it invades Belvidere. The grade schools do not resume their inter-city and city league schedules until after New Year's Day also.

An interesting holiday card has been arranged for Monday night, December 30. Three games will be played by Industrial leagues the feature contest being a mix between the Beiers and the College All-Stars, with Beynon, former Illinois Big Ten ace in the line-up of the All-Stars.

## ODDITIES OF SPORTS YEAR ARE REVIEWED

### Tigers' "Twelfth Man" is Called Most Unusual

(This is the last of a series analyzing the results of the annual Associated Press Sports Poll)

By ALAN GOULD, Associated Press Sports Editor.  
New York, Dec. 23.—(AP)—The oddest happening of the year on any field of American sport was the volunteer appearance of a spectator as a "twelfth man" in Dartmouth's football lineup against Princeton.

This, at least, is the conclusion drawn from the fifth annual Associated Press poll of sports experts, who gave this particular oddity wide preference over all other unusual developments of 1935. It had 29 votes.

The incident had an appropriate setting. Playing in a raging snowstorm, Dartmouth was being pushed all over the soggy gridiron by the ferocious attack of the Tigers. Backed up against their own goal line, late in the game, the Indians needed help.

As Princeton called signals on third down, with scarcely a yard to go for a touchdown, a spectator leaped from the stands, raced across the end zone and took a place in the Dartmouth line before officials could stop him or the play.

Tigers Failed To Score.  
The Tigers, somewhat startled, executed their line smash uncertainly and failed to score. The "twelfth man" was summarily removed and Princeton then scored.

A dispute over the identity of the spectator enlivened the aftermath. A Rahway, N. J., lunch wagon employee claimed the distinction, but broke down on the way to the Yale-Princeton game as a guest of the Yales, and admitted he wasn't the right man.

Here's another version of the extra-man situation: During the Susquehanna's quarterback noised his side had 12 men on the field. He ran a play to the sidelines and the extra man grabbed a seat on the bench.

Golf's oddest, most spectacular contribution to the 1935 novelties, Gene Sarazen's "double eagle" in the Augusta Invitation tournament, ranked second in the poll, with eight points.

Sarazen, needing birdies on three of the last four holes to tie Craig Wood, got their equivalent with one shot when he holed out a 220-yard spoon wallop for a deuce on the par-five 15th hole. Par on the last three holes enabled Sarazen to clinch the deadlock. He beat Wood in the playoff the next day.

Nassau, Bahamas, Dec. 23.—(AP)—Touring golfers headed back to Florida today with young Leo Malory, Norton, Conn., professional holding the big check for the Nassau British Colonial open tournament.

The 24-year old former metropolitan district PGA champion collected \$1,000 of the \$5,000 prize money yesterday by breezing through the last 18 holes in 67 to post a 72-hole total of 271. He nosed out Johnny Revolta of Milwaukee, who shot a 66 yesterday, by one stroke.

Willie MacFarlane of Tuckahoe, N. Y., injured one hand while in the lead, but scored a 274 total for third prize.

Denny Shute of Chicago, Paul Runyan of White Plains, N. Y., and Zell Eaton of Oklahoma City tied fourth place at 278 strokes.

## CARLSTROM IS- SUES FIRST AP- PEAL TO VOTERS

Former Attorney General  
Out for Gubernatorial  
Nomination

Aledo, Ill., Dec. 23.—(AP)—Oscar E. Carlstrom, Attorney General of Illinois under Governors Small and Emmerson, launched a campaign today for the Republican nomination as governor.

The Aledo Republican's formal announcement that he would be a candidate marked his fourth bid for the top place on the Illinois ticket. Carlstrom campaigned first in 1920, entered and then withdrew from the primaries of 1928, and was a candidate again in 1932.

The former attorney general issued a platform which demanded more local control of unemployment relief, with only "such state and federal aid as under emergency circumstances may be found absolutely necessary."

He declared:

### Capitalized Distress.

"Relief as handled for the last two and one-half years has savored too openly of brazen attempts to capitalize distress of our people for political power, and has represented waste, extravagance and overhead so extravagant as to be indefensible."

Carlstrom, touching on other issues, announced he favored a "proper and just system of pensions" for the aged, urging caution to insure no such system caused an economic break down or destroyed incentives to industry or thrift.

He said he represented no faction of Illinois Republicanism, but invited the support of young Republican voters. He said:

### Recognizes Young.

"I believe the young men and women are evidencing good citizenship by organizing to participate in party and state government. If elected, I shall definitely recognize them and accord them substantial opportunity to participate in state responsibility."

As a farm plank, Carlstrom favored the "ever normal granary" plan, adding that "any program should be retained in the control of our farm groups."

His formal announcement was issued from his home here. Since 1932 he has practiced law in Chicago.

## THIS CURIOUS WORLD

By William Ferguson

THE LIGHT OF THE SUN, AT MIDNIGHT, IS VISIBLE IN NORTHERN UNITED STATES AT THE TIME OF THE SUMMER SOLSTICE.

THE MORE VITALLY IMPORTANT OUR ORGANS ARE, THE MORE WATER THEY HAVE IN THEM! OUR BRAINS ARE FROM 80 TO 90 PER CENT WATER!

It is a little known phenomenon that at the time of the summer solstice, in latitudes as far south as the northern boundary of the United States, the diffused light of the sun can be seen on the northern horizon, at midnight. The light is feeble, however, and cannot be seen near the bright lights of a city.

Glendale, Calif., Dec. 23—(AP)—

Eric Seavall, young resident pro-

fessional held a slender lead today

against a host of invading golf stars

as the Southern California open

championship turned into its final

stages.

The tall pro enjoyed exceptional

success with his putter and moved

into front place by a stroke yes-

terday when he shot a 68, two bet-

ter than the difficult par of the

Oakmont club course, for a 36 hole

total of 139.

His closest rivals as played moved

into the third round were Ralph

Guldahl, pro from Dallas, Tex.,

and a young amateur, Pat Abbott

of Altadena, Calif., with scores of

140.

Levi Lunch, Gladwater, Tex.,

Harold Mc Spaden, formerly of

Kansas City, Kas., and Jim Mc

Hale, a young amateur from San

Gabriel, Calif., were tied for fourth,

two strokes back.

Within easy striking distance

were half a dozen others, includ-

ing Lawson Little, Jr., British and

Amateur champion, whose two

rounds of 71 gave him a total of

142 strokes.

arctica in an attempt to aid Lincoln

Ellsworth, missing explorer, and his

**PURDUE MUST  
WORK HARDER  
IN HOLIDAYS****Big Ten Continues Ac-  
tive During Vaca-  
tion**

Chicago, Dec. 23—(AP)—This

Christmas holiday just means more

work for Purdue's basketball squad,

which will engage in three games

of major importance during the

week.

The Boilermakers, who suffered

their first defeat of the season Sat-

urday night, 41 to 39, at Butler,

tackle Notre Dame's powerful, un-

beaten team tonight at Lafayette.

On Thursday the touring Univer-

sity, ranked tops in the East.

Wisconsin, which shared the

1935 Big Ten title with Purdue

and Illinois, will take the De Paul

test in the Chicago Stadium to-

night while Indiana plays Evans-

ville college on the latter's floor.

Both Purdue and Illinois con-  
quered De Paul by close scores andthe Badgers, undefeated in five games,  
will be out to run up a decisive

margin over the Demons.

**Entertains California.**

Northwestern will entertain Cal-

ifornia at Evanston Saturday. Illi-

nois plays Knox at Galesburg, Ill.,

and Minnesota and Marquette clash

at Wisconsin Rapids.

Conference teams won five out of

seven games Saturday night. Chi-

cago rallied in the last two minutes

for a 51 to 49 decision over Armour

Tech. Northwestern outpointed

Michigan State, 29 to 25. Indiana

swamped Vanderbilt, 56 to 18, while

Wisconsin walloped Marquette, 46

to 21, for its first victory over the

Hilltoppers on a Milwaukee floor

in four years. Michigan defeated

Western Reserve, 28 to 23.

Purdue bowed to Butler when

Roscoe Batts, Bulldog forward,

scored from the field in the closing

seconds, and Iowa, fading un-

der a second period drive by West-

ern State Teachers at Kalamazoo,

Mich., took a 48 to 35 beating.

Bill Harlow, the Big Ten's lead-

ing scorer last year, scored 25 of

Chicago's points against Armour

and the 1934 conference runnerup,

Bob Kessler of Purdue, accounted

for 20 points at Butler.

Vaughan Lifted His Av-

.385 Per Cent

New York, Dec. 23—(AP)—The

stars of yesterday were conspicu-

ously absent from the higher po-

sitions in the National league bat-

tling averages for the 1935 season.

While none of the ten top-rank-

ing regulars were out-and-out

rookies, only three made the lead-

ing group the previous season. The

contrast was just as sharp in the

lowered averages of the 1934 pace

setters.

The official averages reveal that

Floyd (Arky) Vaughan of Pitts-

burgh lifted his average from .333

a year ago to win the batting

crown with .385, succeeding his

Louis Winkel is the owner of "Rockford Chieftain" just recently purchased from W. A. Green, Rockford Holstein Farm owner. Chieftain's claim for success as a future herd sire is based on an almost faultless type and a wonderful inheritance of prepotent producing blood.

Both his sire and dam are Ormsbys, having the noted sire, "Sir Pieterje Oomsby Mercedes 37th" for a mutual grand sire.

Last year, Chieftain's dam was milked 345 days, making 774 pounds butter from 15,465 pounds of milk. Average butter fat test in D. H. I. A. 4.02% for the entire year. The first 34 officially tested dams of
